Hi, I'm looking for a stylish dress for a summer garden party. Any recommendations?

The blue one looks lovely! Do you have it in size M, and can it arrive by next Friday?

Great! Add to my cart

AI Intelligent Customer Service

Zero labor, no time difference, low cost, 24/7 manual service replacement, and continuous reduction of operational expenses

Custom Branded AI Persona

Customize Chatbot name, avatar, color, and tone to match brand identity and build customer trust

Full Product and Order Synchronization

Real-time sync of product specs and inventory with no manual entry — sell items instantly upon listing

7×24h Global Multi-language Service

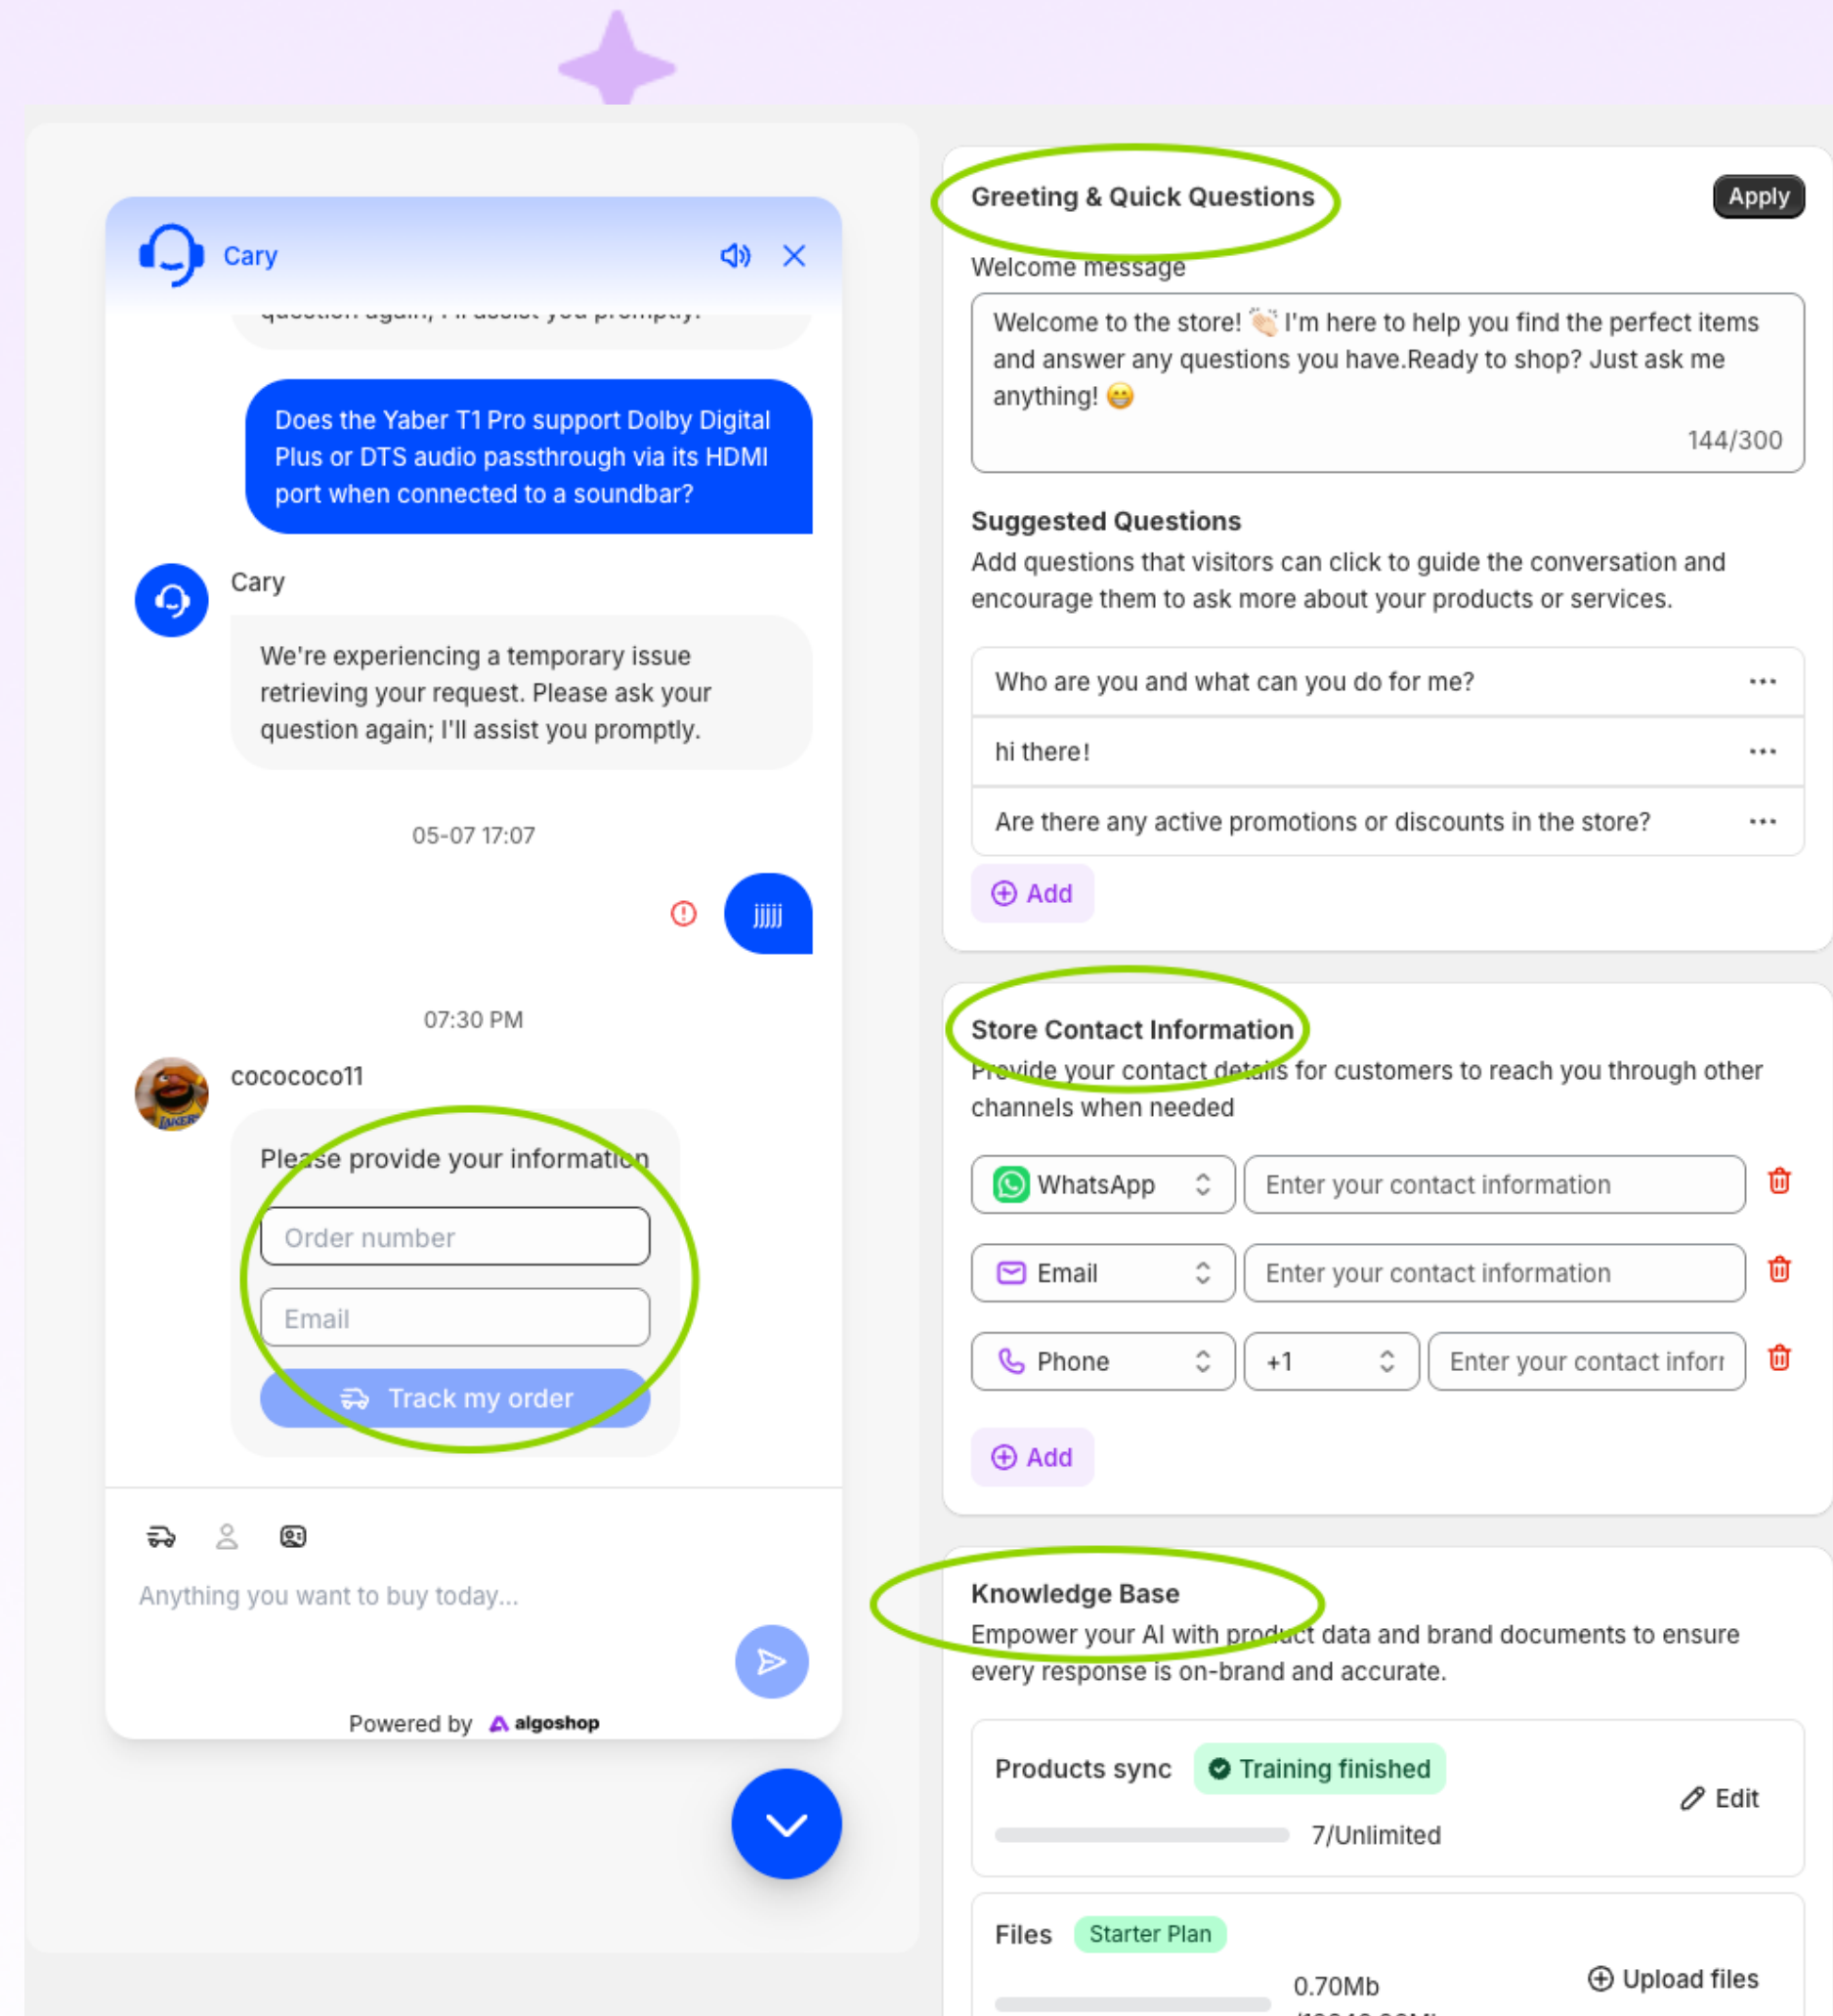

Uninterrupted 24/7 online presence supporting real-time translation for global niche languages

Smart Product Recommendation

Proactively promote high-conversion items based on best-seller data and preset inquiries

AI Sales: Personalized Guidance for Precision Conversion

Deeply analyze customer preferences to convert visitors into orders through personalized, precision guidance

Personalized Smart Recommendation

AI analyzes customer preferences and purchase history to provide customized product suggestions

Self-Service Order and Logistics Inquiry

Automatically retrieve real-time logistics updates to reduce repetitive inquiries and free up support staff

Social Media & Private Domain Retention

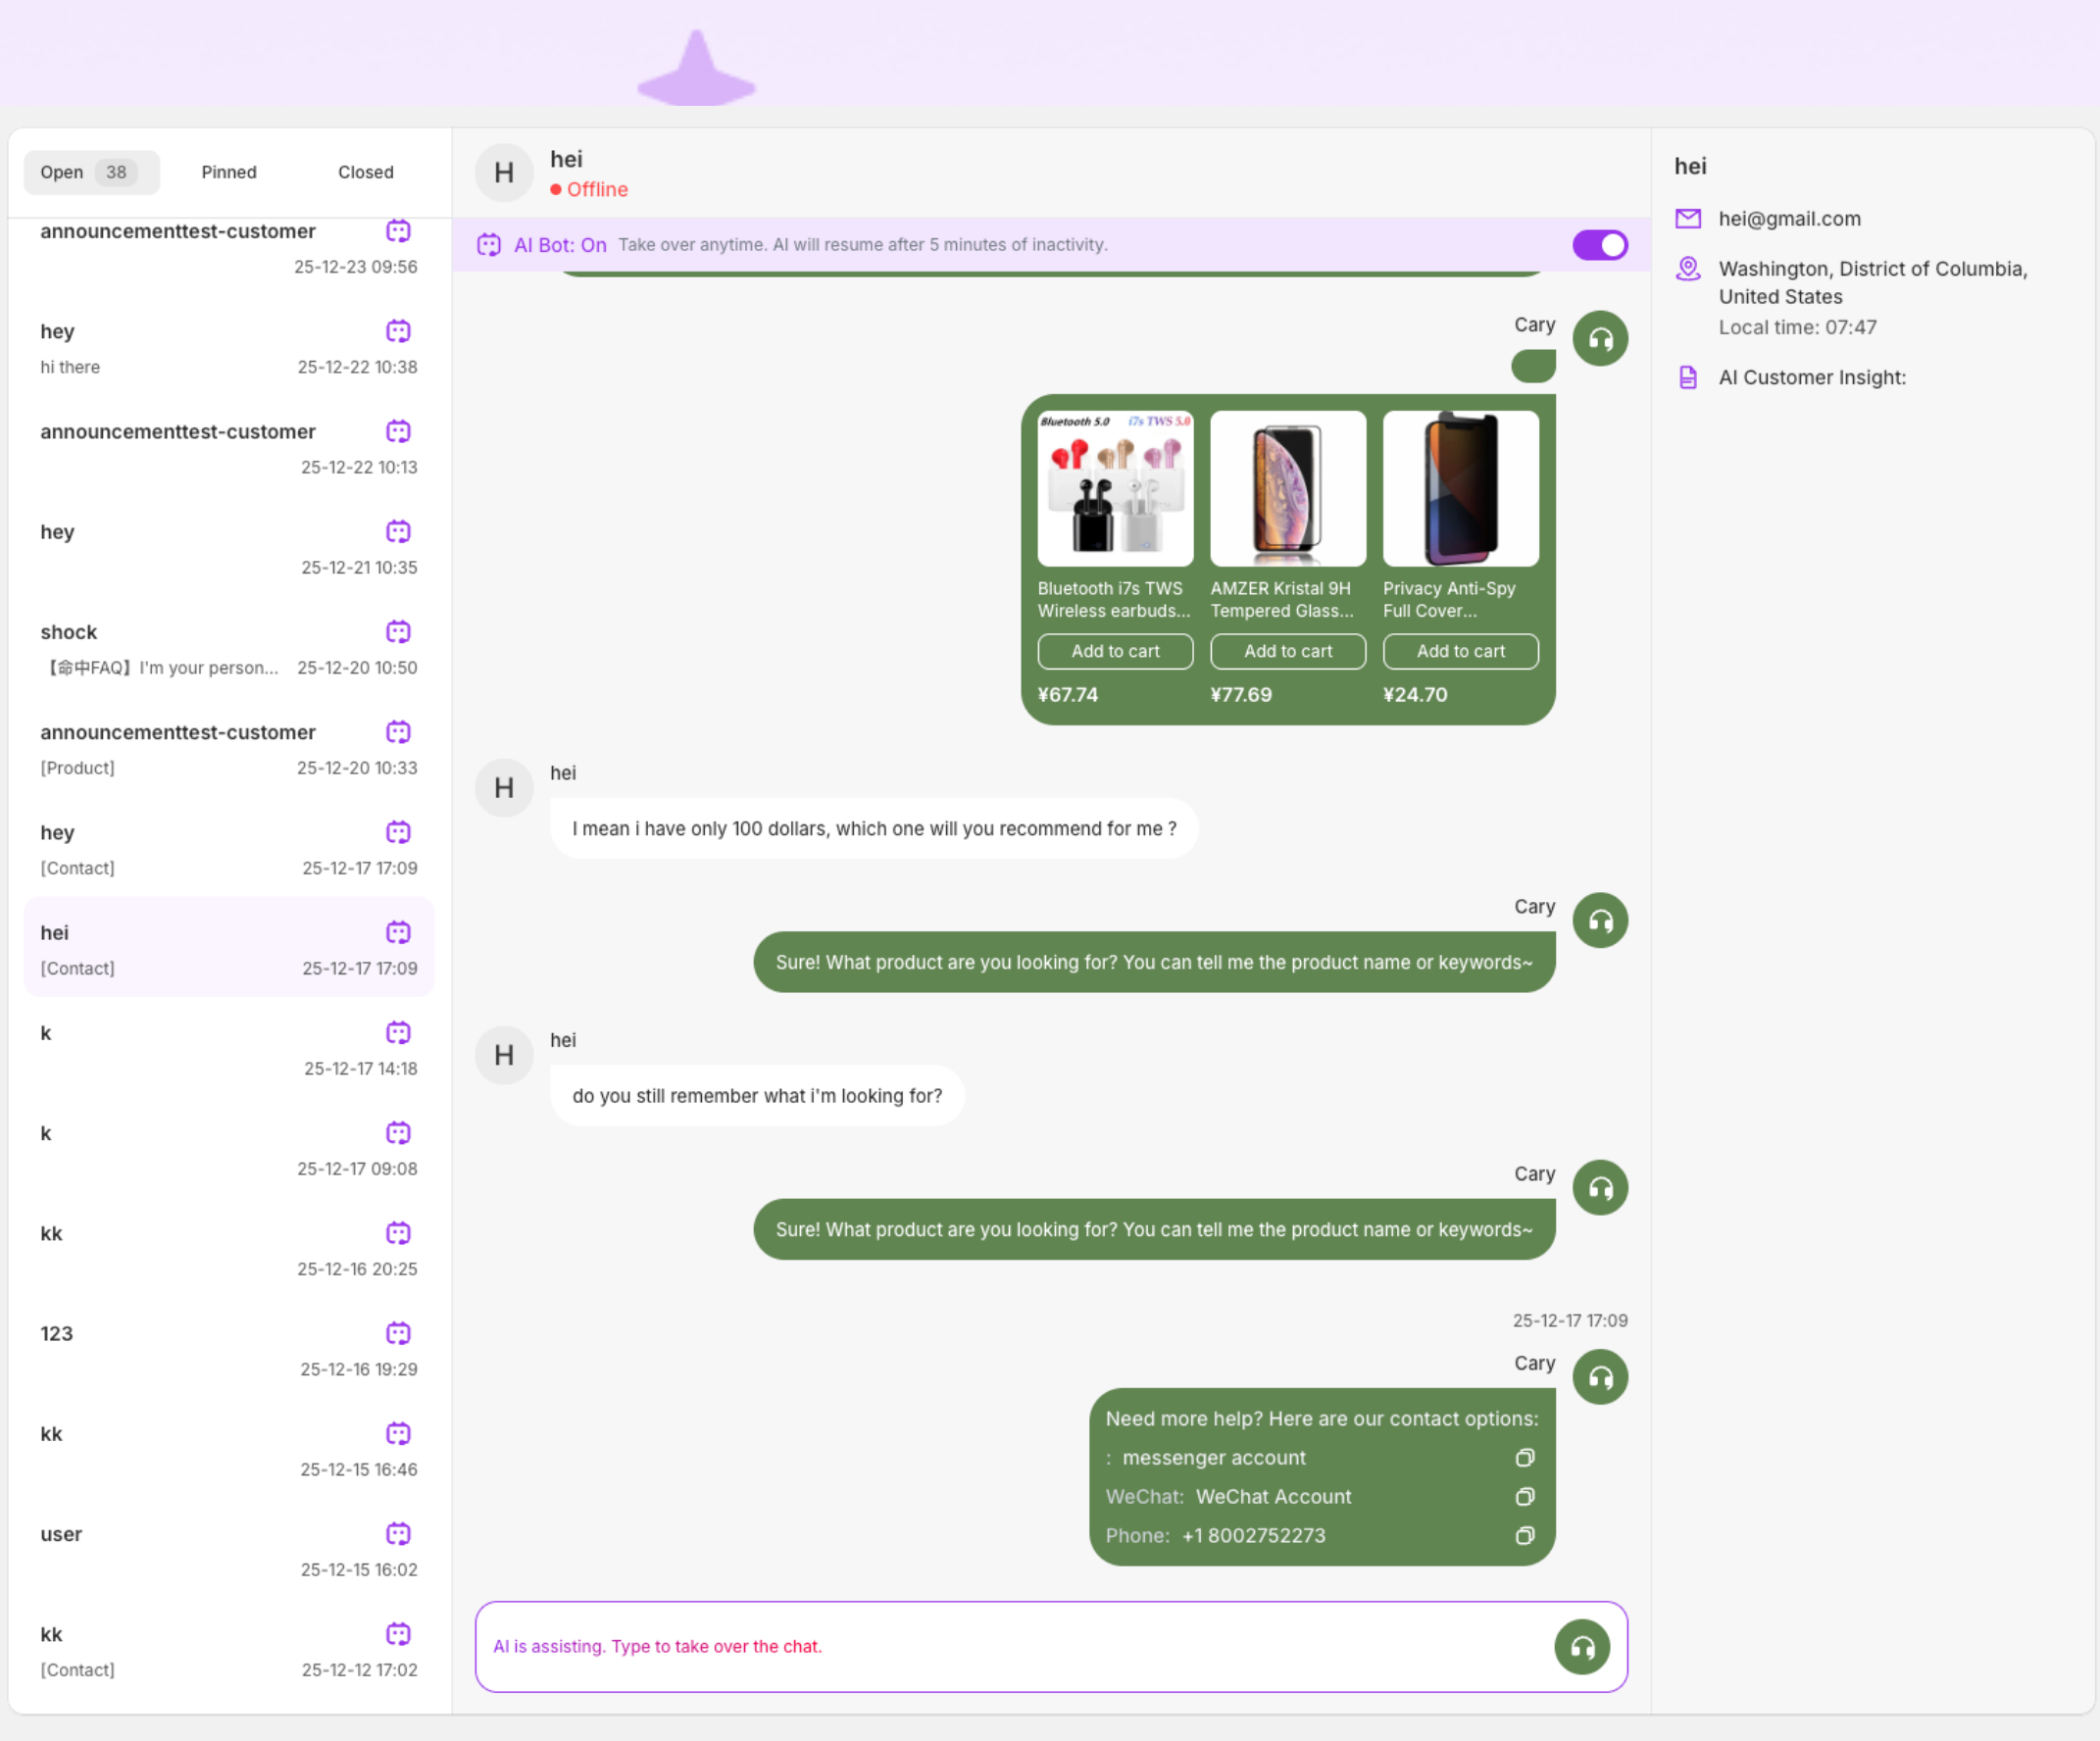

AI proactively guides visitors to Instagram or WhatsApp to convert public traffic into brand followers and prevent loss

One-Click Private Knowledge Base Training

Upload multiple formats for AI to rapidly learn store rules and professional knowledge, ensuring accurate responses

Live Chat Manual Takeover: Human-AI Collaboration for Key Conversions

Human-AI Collaborative Support: Efficiently manage every high-value conversation

Flexible Manual Shift Settings

Independently set live agent hours to trigger calls only when staff are available, optimizing human resources

Seamless Real-time Manual Takeover

Agents can monitor AI chats at any time and take over with one click to provide professional human support during critical closing moments

AI Intelligent Backup Reception

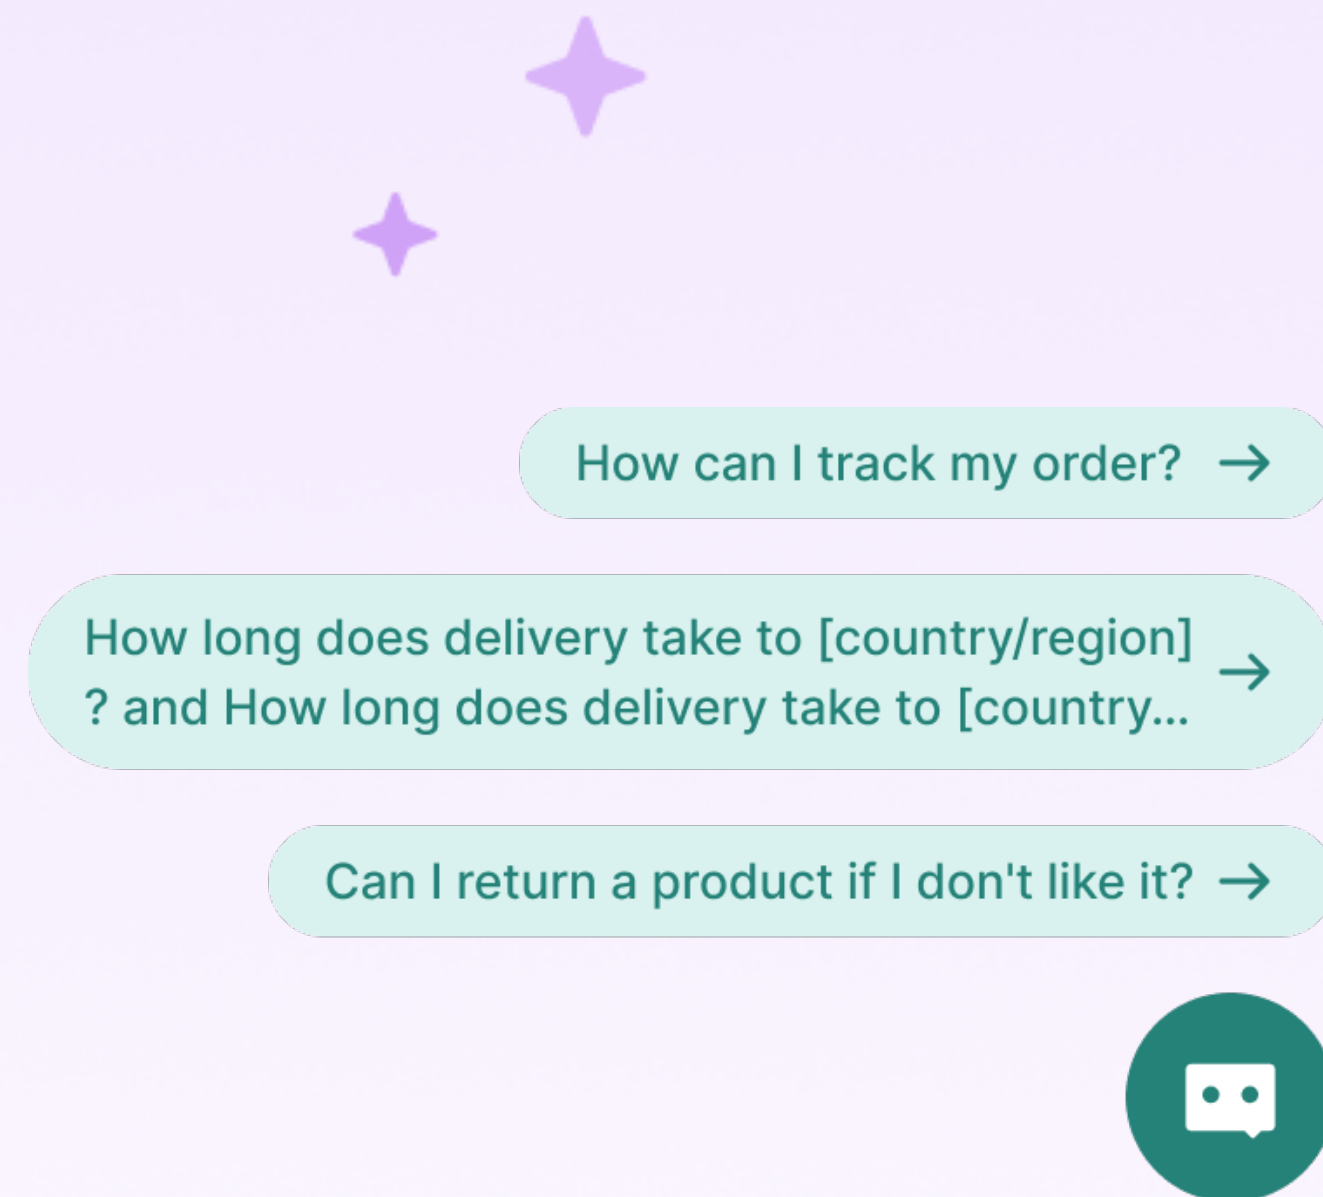

AI automatically resumes the conversation if a live agent does not respond in time, ensuring no customer information is lost

Multi-dimensional Chat Data Export

Export chat logs with one click and use AI summarization to auto-generate customer tags for precision marketing

AI Proactive Guidance: Multi-modal Intelligent Communication Cards

Capture visitor shopping signals and proactively push tutorials, pairings, and suggestions to drive sales at critical decision points

Text Message Proactive Guidance

Proactively inquire about needs or send product descriptions during browsing to eliminate information gaps and build purchase confidence

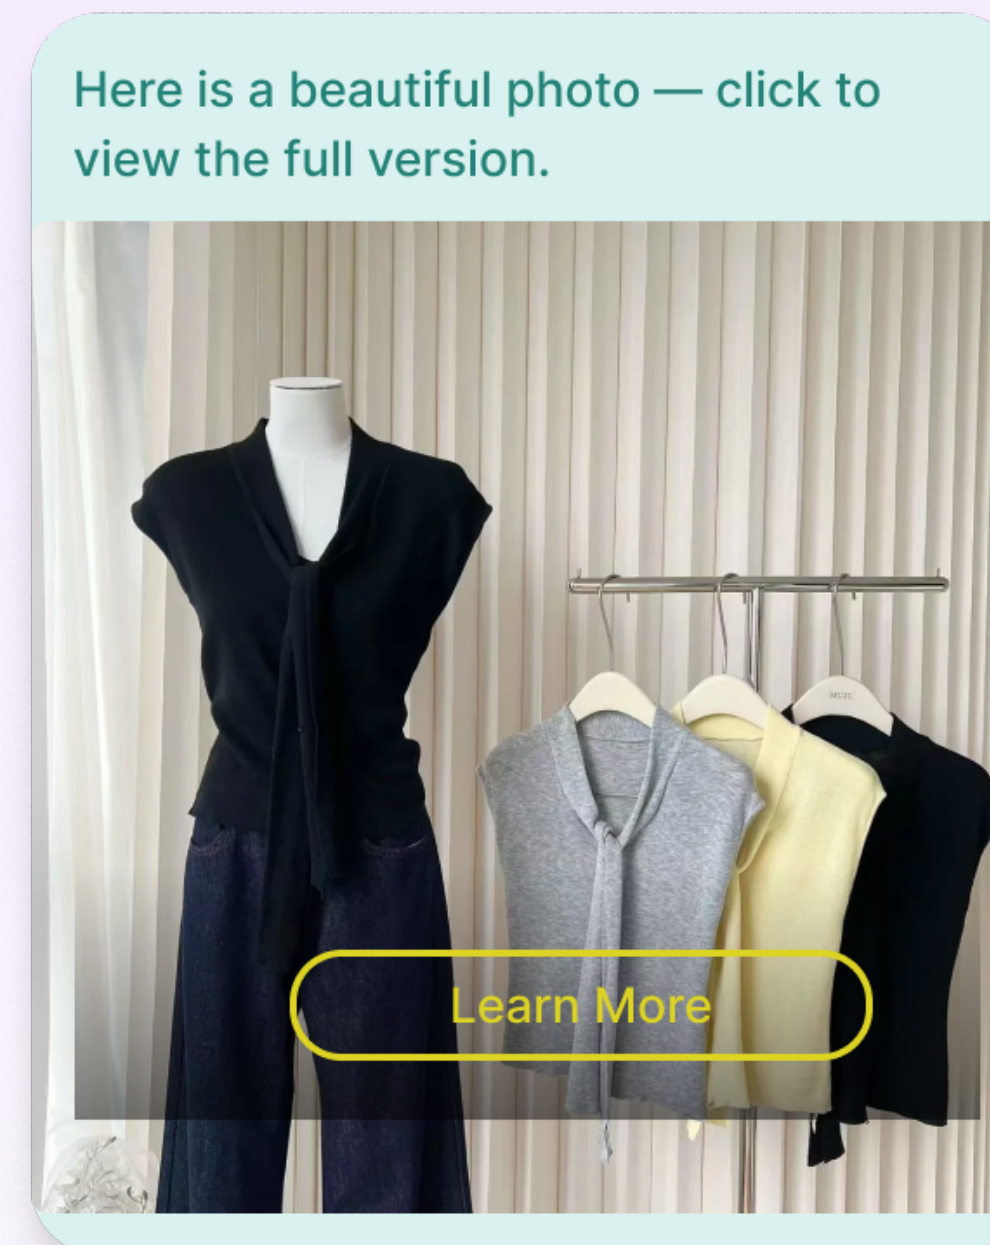

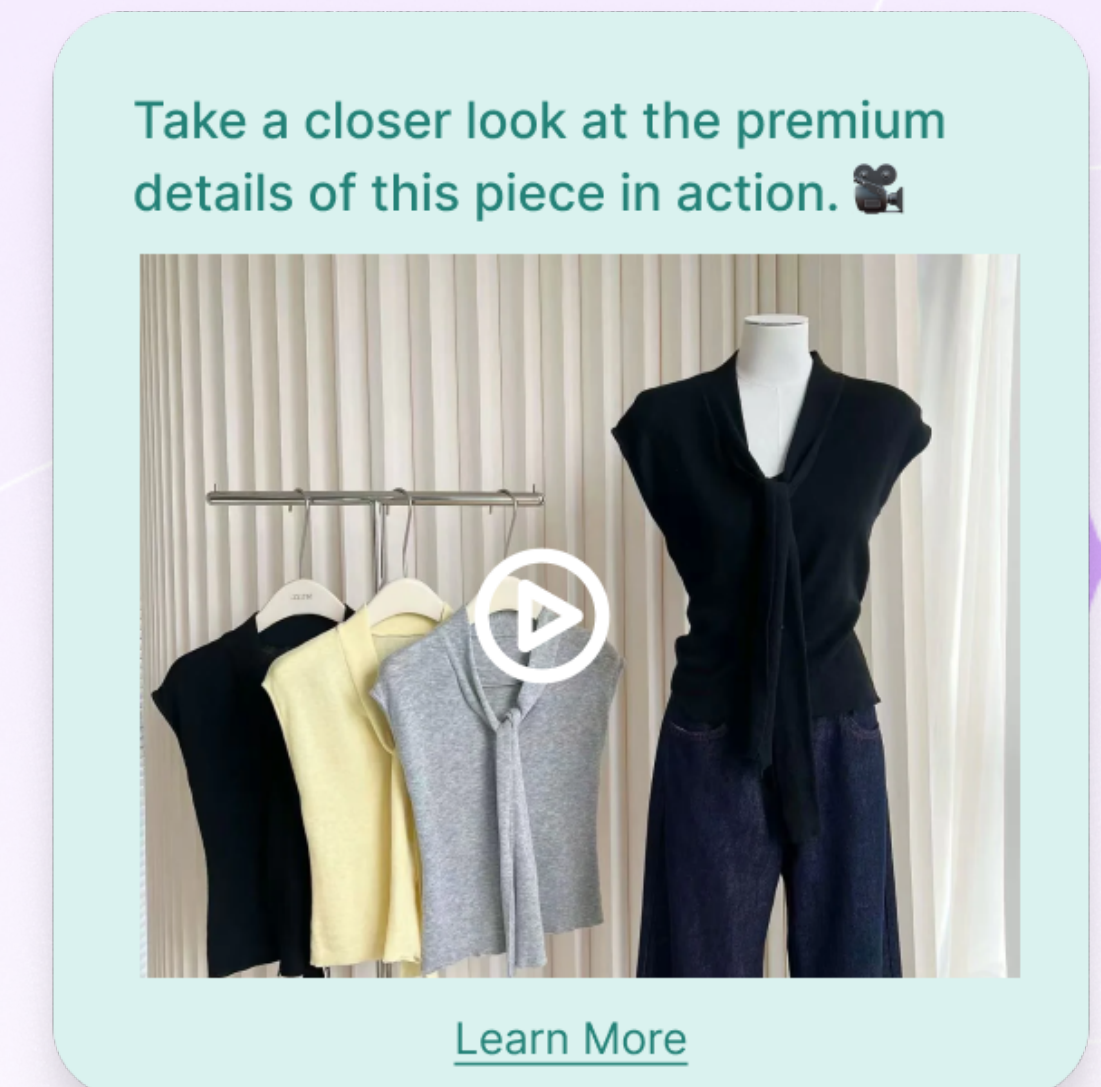

Image Outreach Cards

Automatically push curated pairings or material detail images to visually showcase product appeal and encourage higher spend

Video Outreach Cards

Display real-time usage tutorials or review videos to reveal product details and use dynamic content to secure the final order

AI Proactive Outreach: Product Recommendation Cards

Analyze user shopping intent to precisely push orders at key decision points and increase average order value

1. Cross-sell & Bundle Guidance

AI automatically recommends complete sets or pairings while users browse single items to encourage larger carts and higher order values

2. Cart Abandonment Recovery

AI instantly pushes more cost-effective alternatives when customers remove items or prepare to leave, capturing traffic before it drops off

3. Best-Seller Guidance

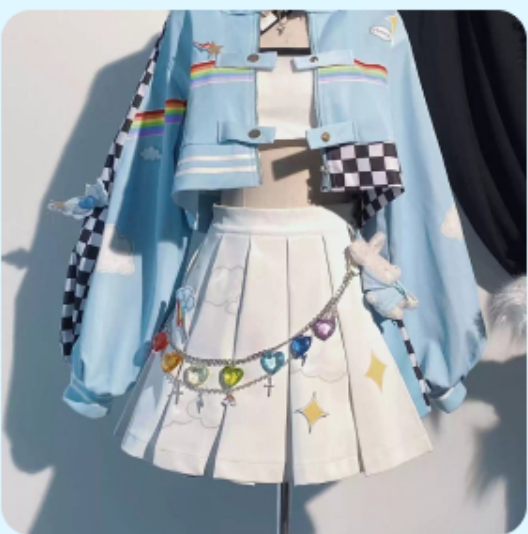

Recommend trending items when customers hesitate to reduce search costs and achieve faster conversions

4. Personalized Recommendations

Leverage browsing and purchase history to provide precise recommendations at critical decision moments for quicker checkouts

AI Proactive Outreach: Gamified Scratch Cards

Pop up scratch cards on key pages to drive engagement with rewards, converting hesitant traffic into convertible assets

1. Flexible Prize Configuration

Customize prize content and winning probabilities, supporting coupons, discount codes, physical rewards, and more

2. Branded Visual Design

Freely configure theme colors, styles, and copy to perfectly align with your store's brand identity

3. Intelligent Trigger Timing

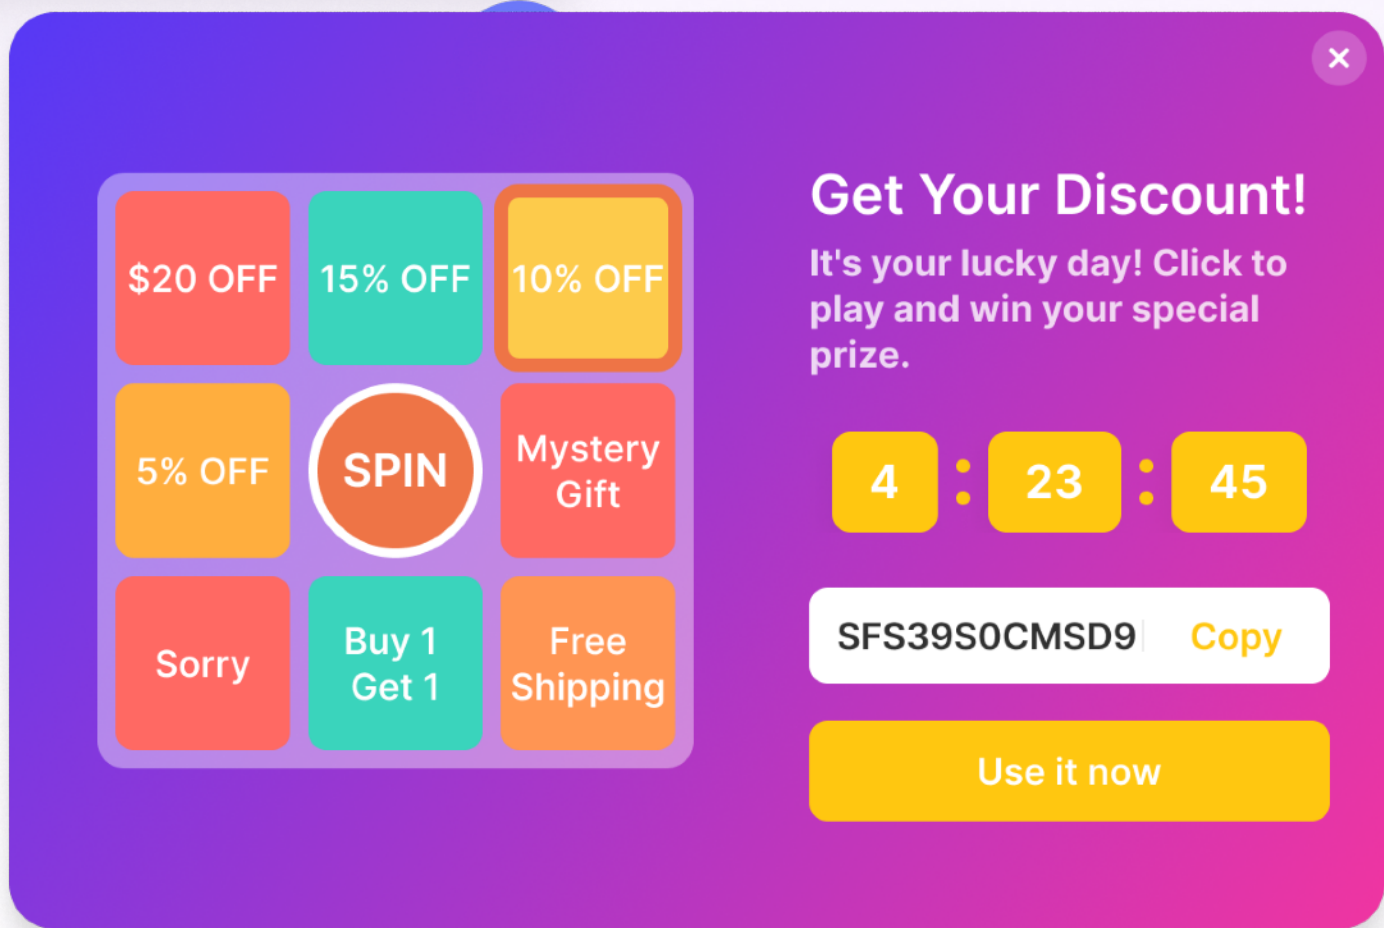

Pop up on specific pages or at key behavioral nodes to ensure precise reach without being intrusive

4. Lead Generation & Data Collection

Guide users to leave email or social media info, building a foundation for future marketing and repeat purchases

AI Proactive Outreach: Spin-to-Win&Grid Draw Coupon Cards

Stimulate user engagement with spinning draws and instant prizes to significantly boost page dwell time and interaction rates ✨

1. Flexible Prize and Probability Configuration

Customize prize types and winning probabilities to adapt to scenarios like new user acquisition, order boosts, or clearing inventory

2. Branded Wheel Design

Customize wheel styles, theme colors, and copy to maintain high consistency with your store's visual identity ✨

3. Intelligent Pop-up and Trigger Strategies

Trigger on specific pages, behavioral nodes, or time points to hit high-conversion moments with precision

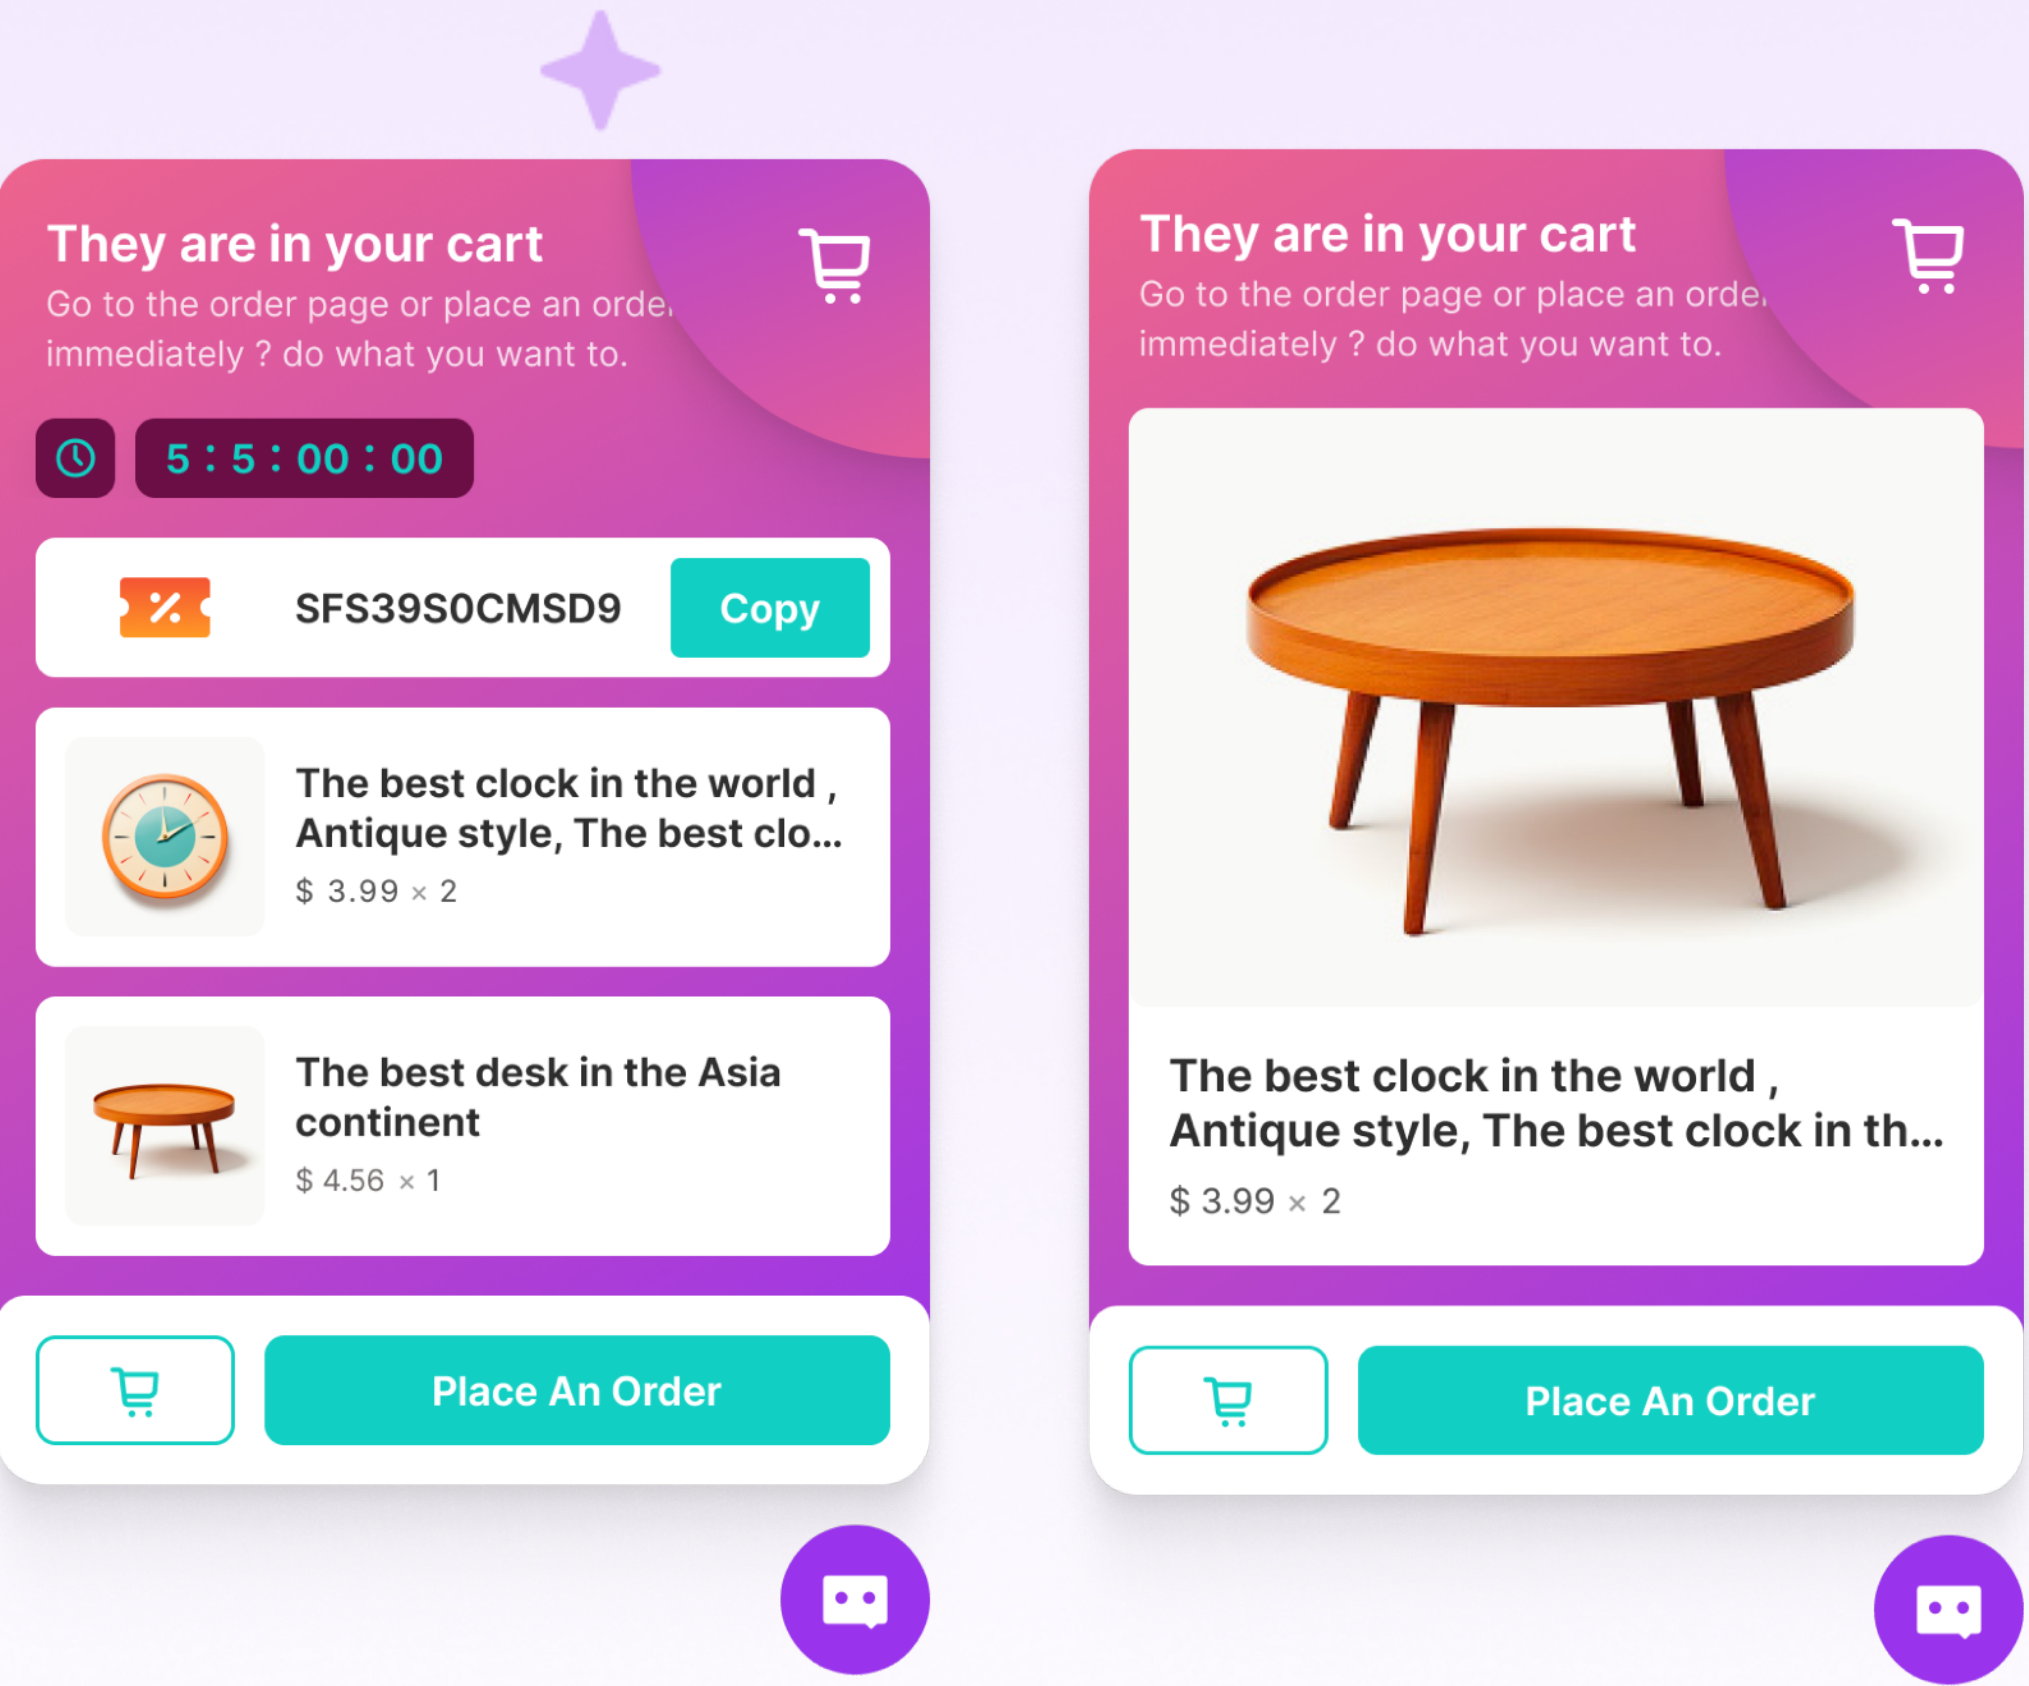

4. User Information Collection and Retention

Guide users to leave contact details through lucky draws to build sustainable private domain customer assets

AI Proactive Outreach: Cart Reminder Cards

Actively pop up reminders to incentivize checkout when carts are abandoned or payments remain pending

Application Scenarios

- Abandonment Interception:** Immediately guide the order when a cart reaches a specific value but remains un-purchased.
- Pending Payment Nudges:** Encourage customers to complete their transaction after they have initiated checkout but failed to pay.

Key Features

- Custom Amount Thresholds:** Automatically trigger reminders when the cart total meets your criteria to accelerate conversion.
- Countdown & Incentive Mechanics:** Embed coupons and dynamic timers to drive immediate action through "Reward + Scarcity".
- Flexible Intelligent Triggers:** Customize timing based on visitor intent, dwell time, or specific page behavior.
- Deeply Customizable Visuals:** Tailor colors, themes, and copy to ensure cards perfectly match your brand identity and professionalism.

AI Proactive Outreach: Free Shipping Reminder Cards

Monitor cart values and display progress bars to encourage add-on purchases and increase average order value

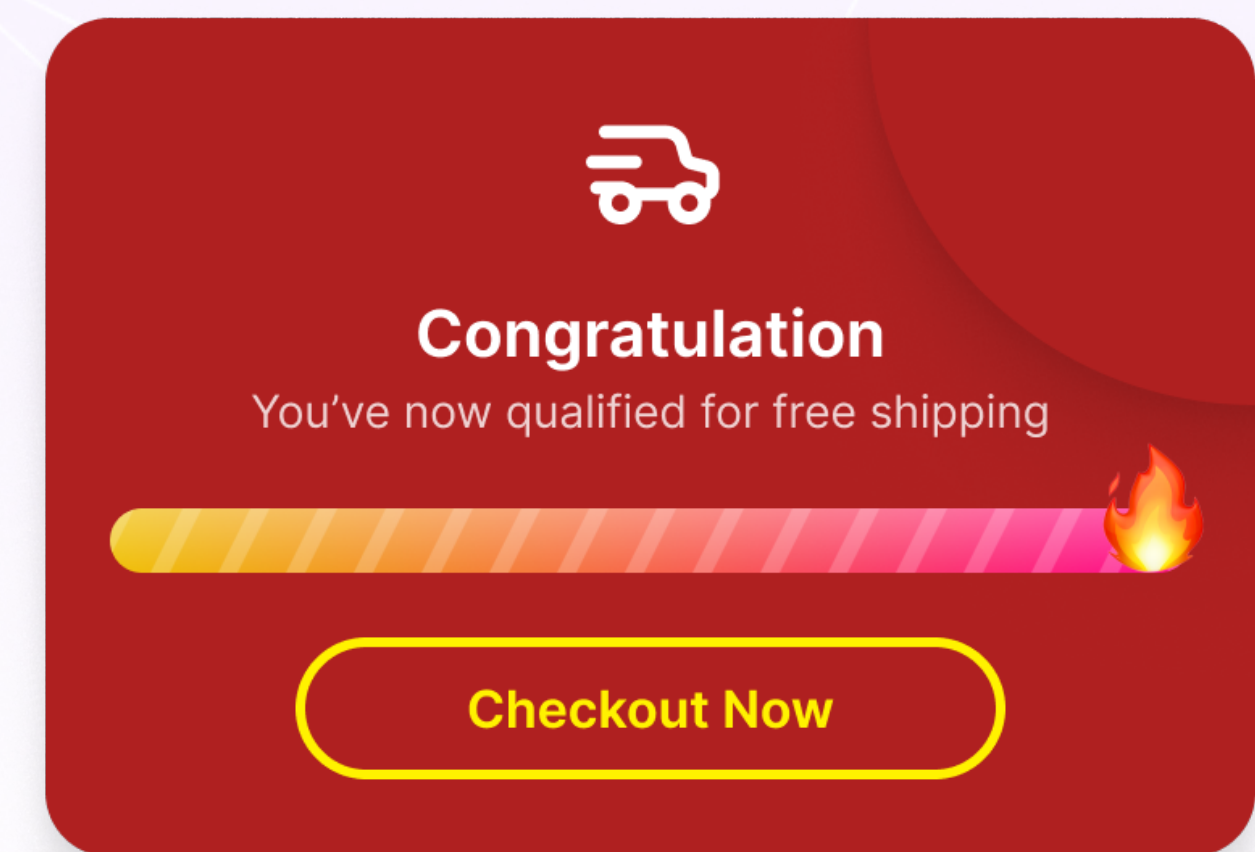

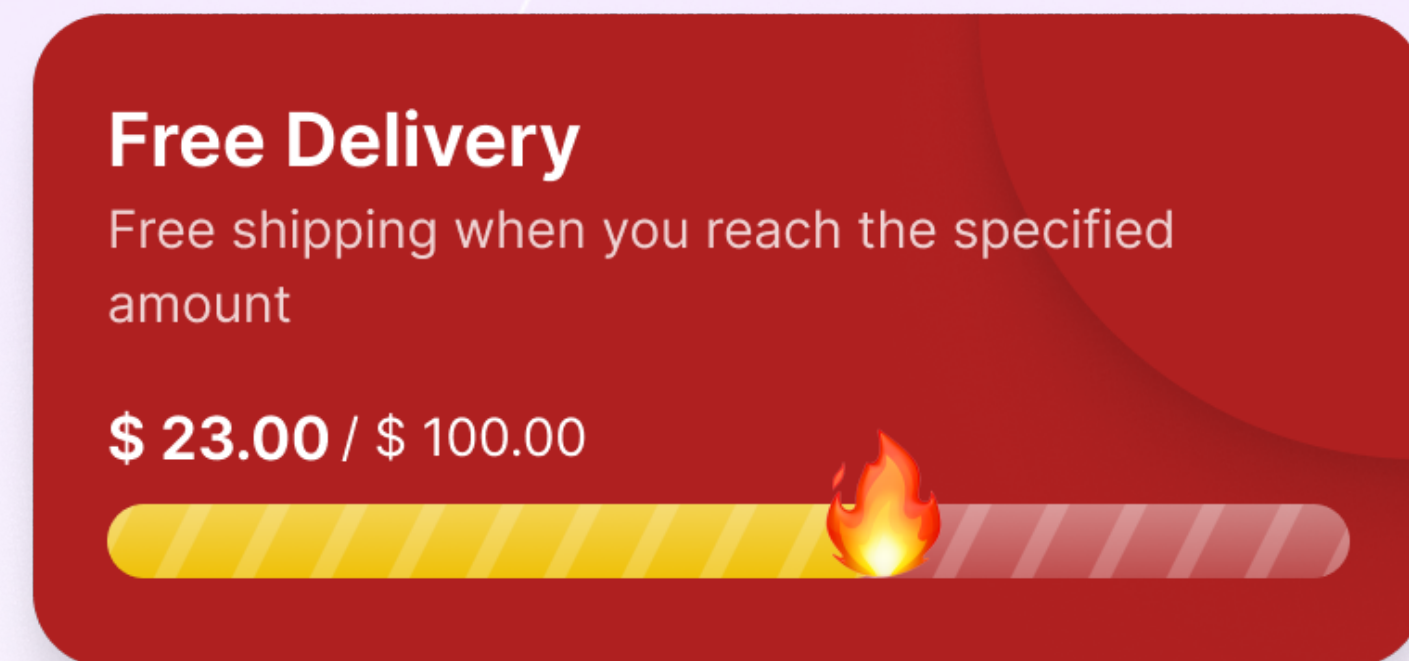

1. Dynamic Progress Bar Guidance:

Link real-time cart totals to a visual progress bar, guiding customers to add more items to qualify for free shipping

2. Instant Reward Feedback: Once the threshold is met, the card nudges the customer to finish and provides a one-click checkout button to shorten the path to purchase

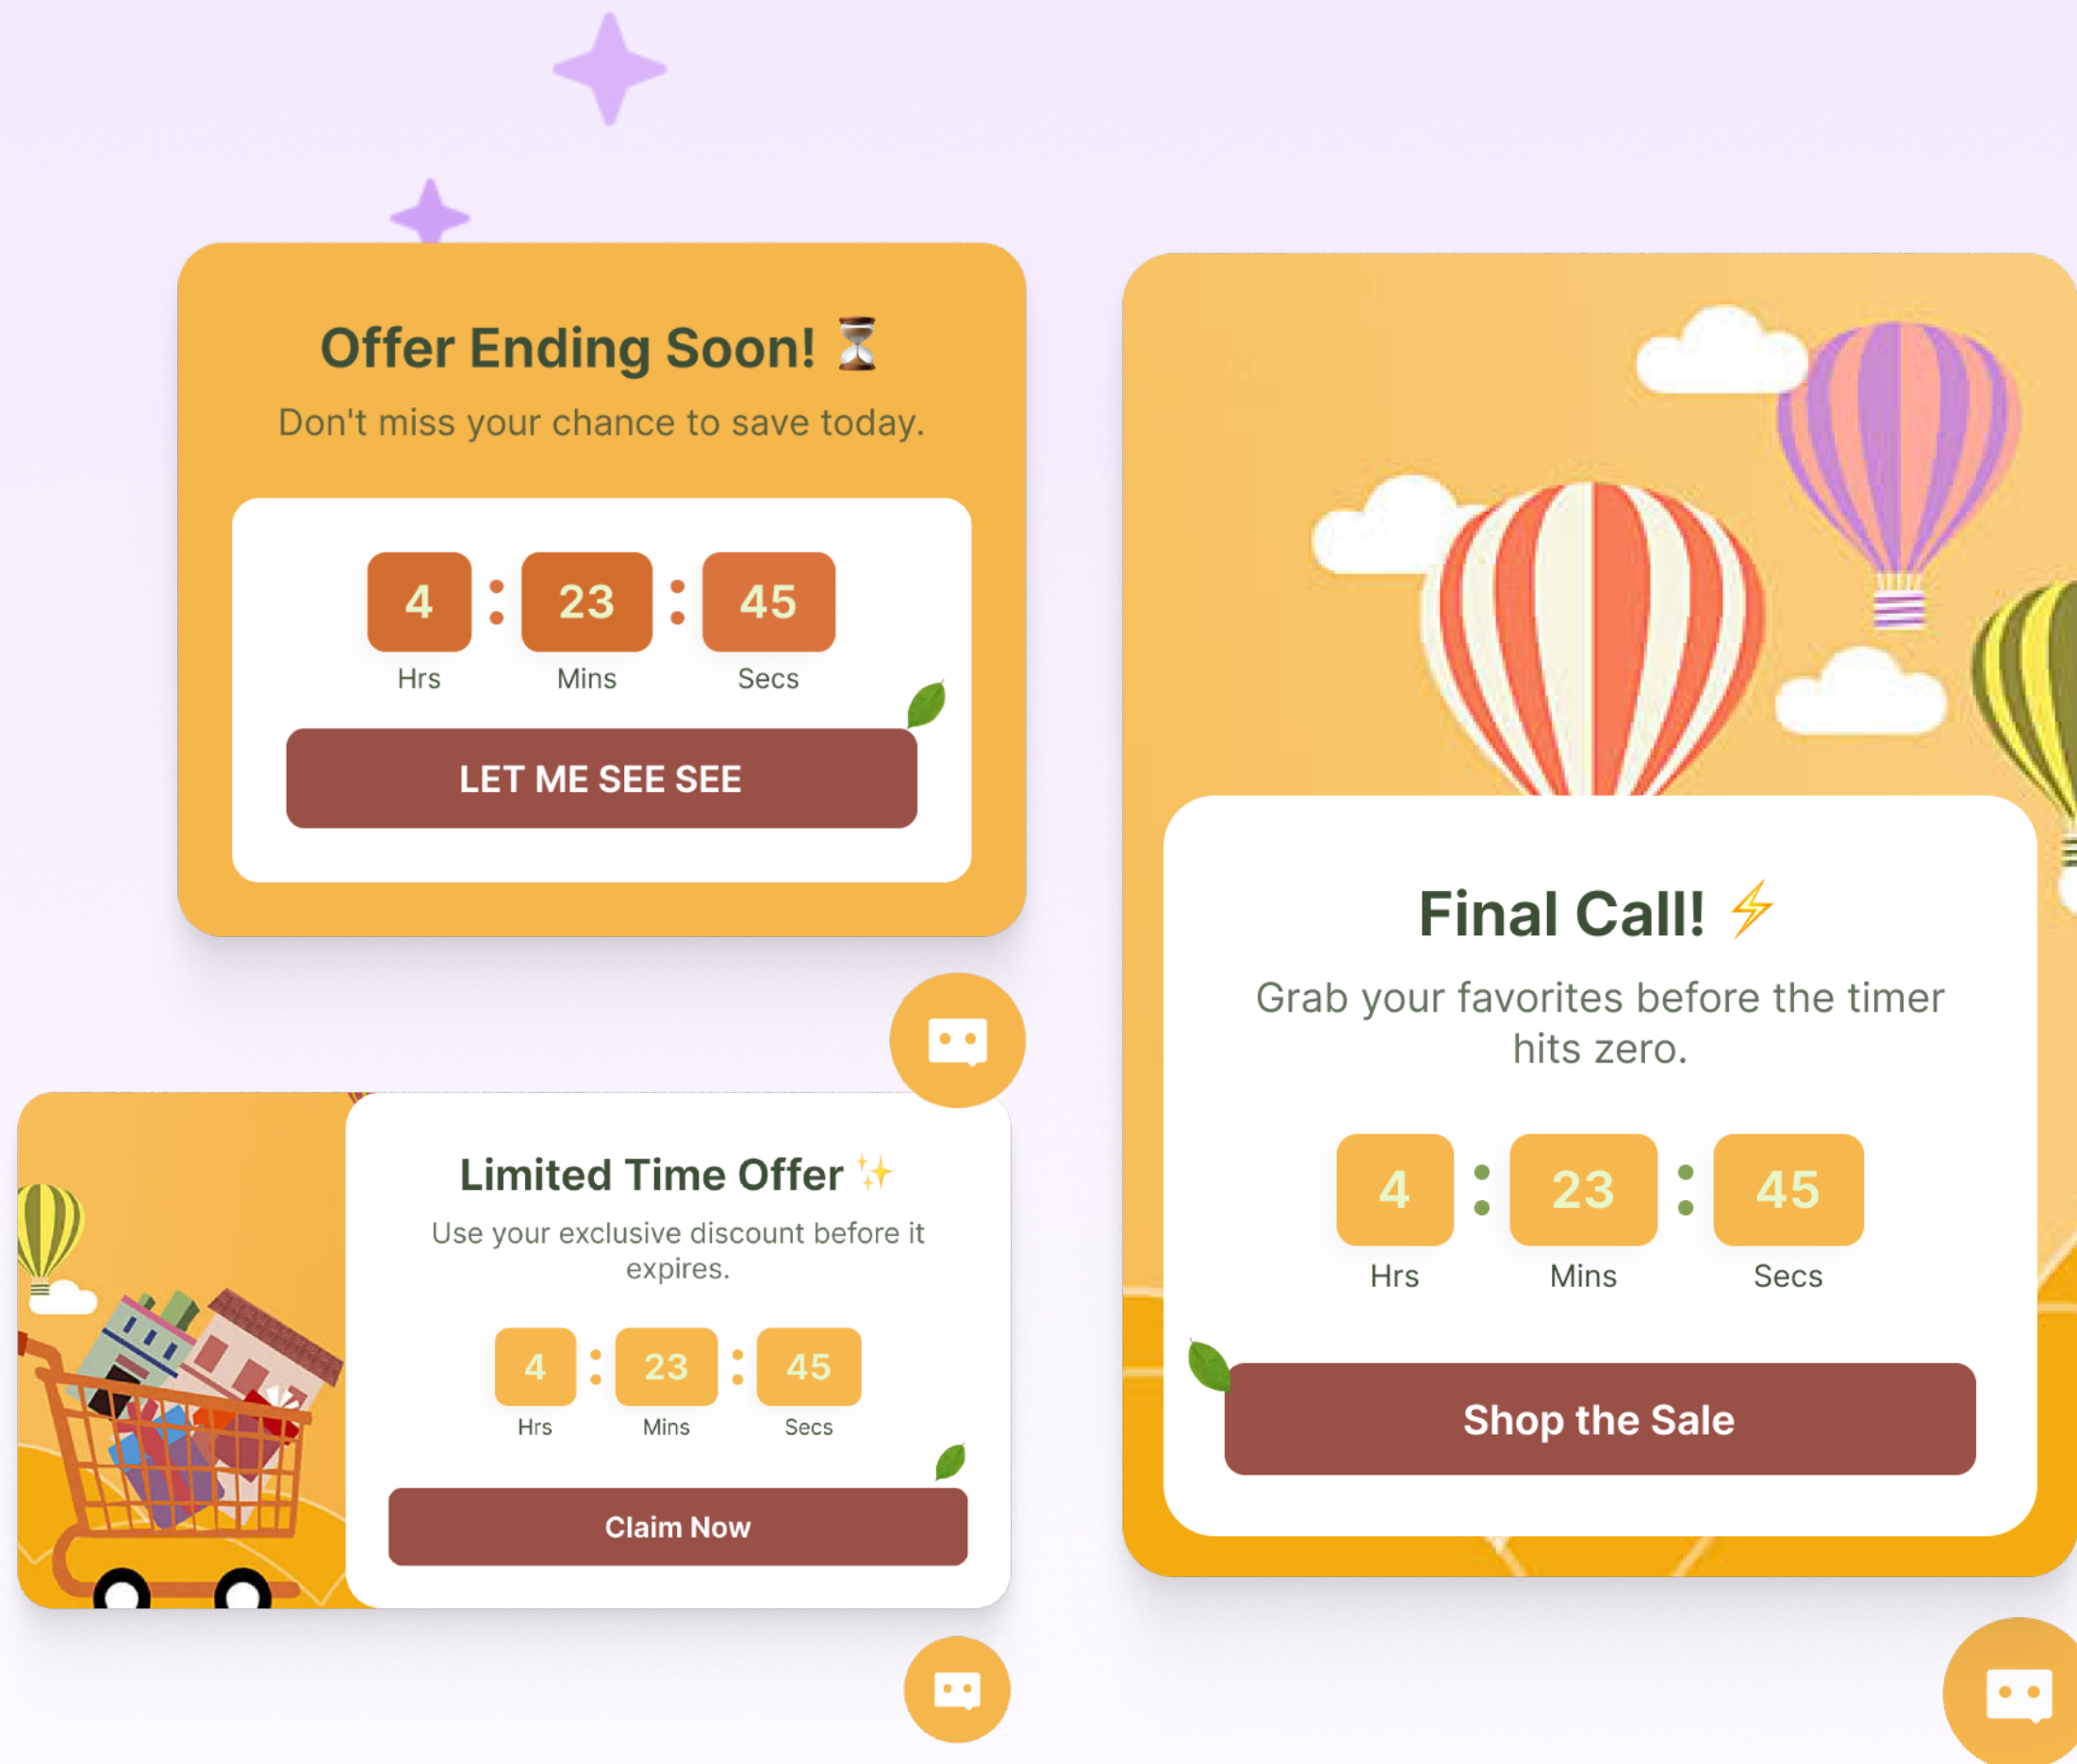

3. Flexible Trigger Timing: Customize triggers based on visitor intent, dwell time, or specific page behavior to reach customers at the optimal moment

4. Deep Brand Visual Customization: Tailor colors, backgrounds, and guidance copy to ensure the card perfectly aligns with your brand style

AI Proactive Outreach: Event Countdown Reminder Cards

Use countdown timers during marketing campaigns or inventory shortages to drive immediate checkout

Application Scenarios

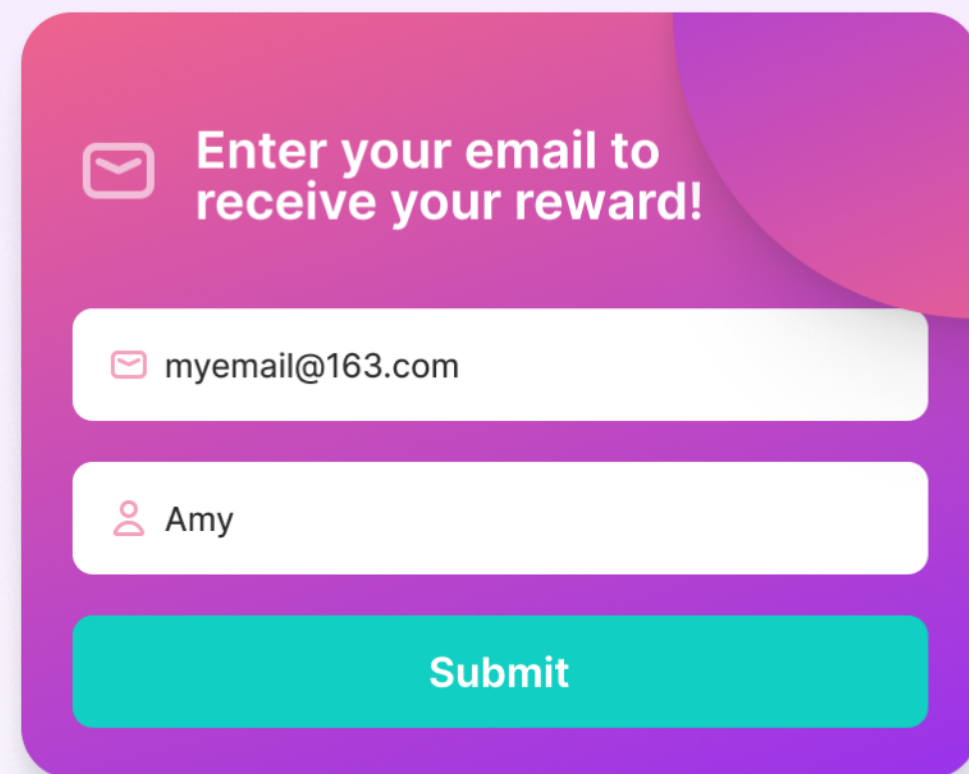

- Limited-Time Promotions:** Display countdowns during flash sales, holiday promotions, or new arrivals to guide orders.
- Low Stock Urgency:** Use countdowns for trending items nearly out of stock, leveraging scarcity to drive purchases.

Conversion Impact

- Create Urgency & Speed Up Decisions:** Shorten customer hesitation and boost conversion by creating a "buy now or miss out" atmosphere.
- Intercept Abandonment & Lower Churn:** Recover potential lost sales by combining discount incentives with time pressure.
- Enhance Campaign Atmosphere & Experience:** Package promotions as interactive reminders to elevate brand quality and engagement.

AI Proactive Outreach: Survey & Data Collection Cards

Design surveys for targeted segments to collect feedback and continuously optimize product selection

What's your biggest priority when choosing a chair ?

☒ A. Long-lasting durability

☐ B. Stylish & trendy design

☐ C. Affordable price

☐ D. Fast & free shipping

Next

1. Churn Reason Insights

Pop up when visitors prepare to close the tab or remove cart items to ask "Why didn't you buy?", collecting real feedback on price, style, or shipping

2. New Customer Preference Profiling

Inquire about style, budget, or preferences when new users enter or browse specific categories, then push the most relevant products based on their answers

3. Shopping Satisfaction Surveys

Collect feedback on buying experience, shipping speed, or product quality after payment or delivery to continuously improve the customer journey

4. New Product Testing

Seek opinions from core fans before a launch to predict market response and reduce the risks of product selection and overstocking

AI Multi-Channel Integration: Connecting Mainstream Social Private Traffic

Integrate AI Sales Assistant with WhatsApp, Instagram, and Messenger for 24/7 automated lead acquisition and conversion

1. Omni-channel Automated Response

Deploy your trained AI assistant to major international social media platforms to respond in seconds without manual supervision, significantly reducing support pressure.

2. Unified Backend for Efficient Management

Process all customer dialogues from WhatsApp, Instagram, and Messenger in a single interface—eliminate platform switching and double your efficiency.

3. Social Media Interaction Conversion

Automatically monitor and reply to comments on business posts, converting public social interactions directly into private inquiries to ensure no potential lead is missed.
